-ABOUT ME-

I am a student of Systems Analysis and Development, combining creativity and technical skills with responsibility for interface creation. My passion for development goes beyond the visual, focusing on delivering intuitive and memorable experiences. I feel there is much to learn and create with technology, and I am eager to contribute significantly to this process.

-PROFESSIONAL EXPERIENCE-

05/2022 - Present - FULL STACK DEVELOPER, Freelancer
Providing efficient solutions for various projects. During this period, I have developed comprehensive skills covering both front-end and back-end, working autonomously to meet the specific demands of each client.

06/2023 - 09/2023 - APPRENTICE, ACM Rio (CYMI BRASIL)
Worked in the General Secretariat alongside the CEO and frequently assisted in the Marketing (Design, Social Media, etc.) and IT (Front-End Development) departments.

-EDUCATION-

2023/2025 - Estácio, Systems Analysis and Development (Technologist)
2020/2022 - CE AMARO CAVALCANTI, (High School)

-SKILLS-

Languages: Brazilian Portuguese: **Fluent** ; English: **Fluent**; Italian: **Basic**
